WEDDING PHOTOGRAPHER

**“The Art of
the Captured Moment”**

A guide to your wedding 2025/2026

Because the most beautiful parts of your story happen when you think no one is watching.

My name *is Marko*

"I see my camera as a tool that allows me to stop time."

My journey began in secondary school for photography, where curiosity grew into a lifelong calling. Today, with thousands of photographs behind me and more than twenty years of experience, I know how to recognise the genuine moments of love worth preserving forever.

When I am not working, I recharge through extreme sports and running - that is what gives me the energy to be fully present at your wedding from the very first moment to the very last. But my true foundation is my family: my wife and our three children. Because of them, I understand the value of family photography more deeply than ever. I do not simply want to hand you photographs; I want to preserve the memories of the foundation you are beginning to build together.

God creates the beauty.

My camera and I are a witness.

Why should we *tell this story* together?

I do not follow trends; I follow the light and the honesty of your moment.

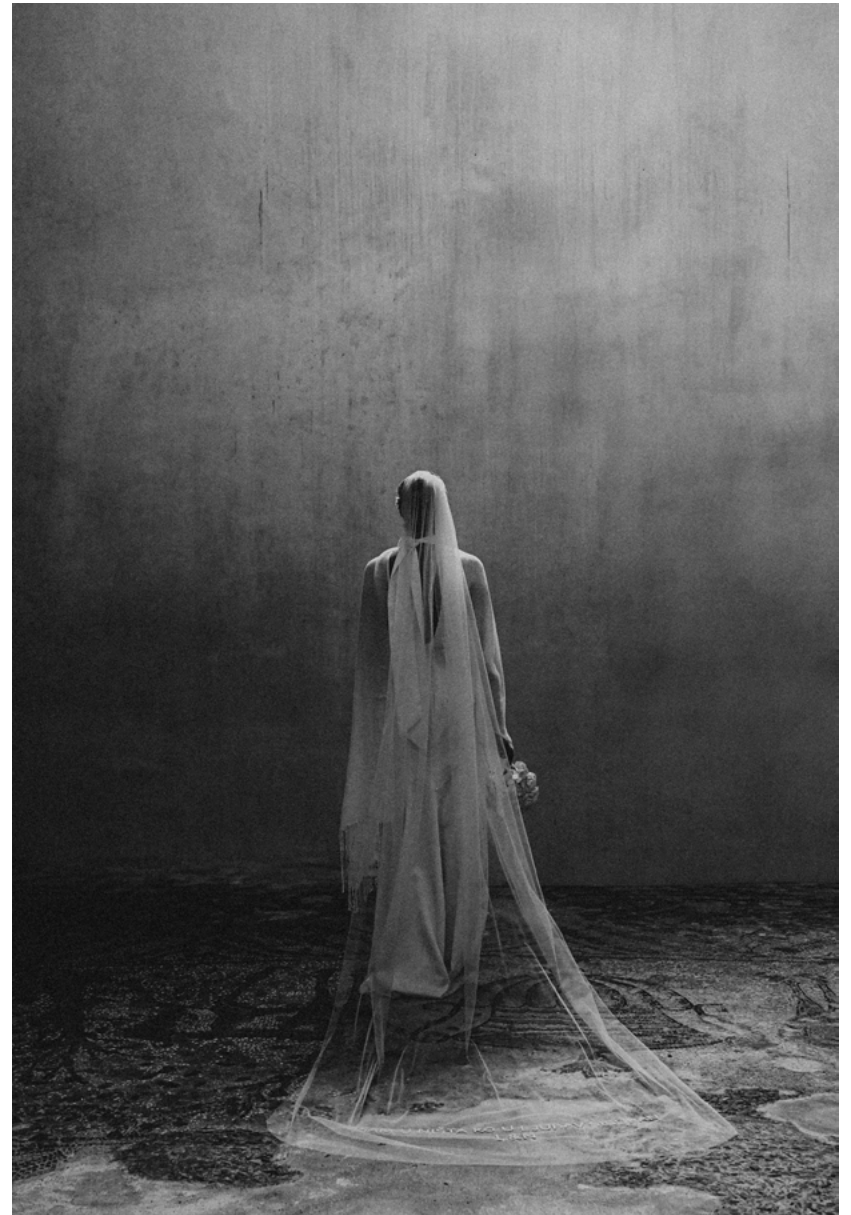

I believe the essence of great photography lies in connection - the connection between the photographer and what you are feeling, and later, the connection between you and your memories.

My role is not to pose you endlessly or turn your day into a film set. I am there to be invisible - a quiet observer of your genuine laughter, your trembling hands during the vows, and those glances you believe belong only to the two of you.

Before it all begins, I want to get to know you. Not out of formality, but to understand what you love and what moves you. On your wedding day, I do not want you standing beside a stranger with a camera, but beside someone who knows exactly which moments will matter most to you twenty years from now.

THINGS I LOVE

- The scent of the forest after rain and the sound of trainers on gravel
- The first quiet moments of the morning and a coffee before the house wakes up
- Honesty in people and simplicity in design.
- That moment at a wedding when the couple forgets I am there.

A romantic couple stands in a grand, classical architectural setting. The scene is filled with large, ornate stone arches and columns. In the background, a building is under renovation, with scaffolding visible. The overall atmosphere is warm and historical, with soft lighting. A semi-transparent white circle is overlaid in the top right corner.

„Your Story in Photographs”

Booking

Your Date

Everything begins with an enquiry and an informal conversation. I want to get to know you, hear your story, and understand your wishes.

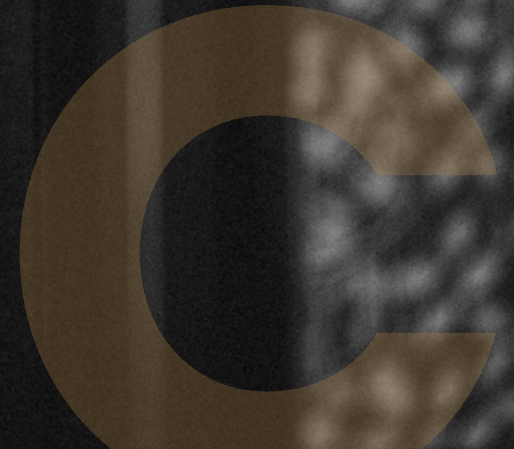

Once you decide that I am the person you want to trust with your memories, your date is reserved by signing a contract, either online or in person. A deposit of EUR 200 officially secures your booking, and that amount is later deducted from the final total.

One month before the wedding, we go through the final schedule together. I am there for all your questions, advice on session locations, or recommendations on the best light. I am happy to travel to your chosen location, wherever your journey takes you.

I have experience working in all weather conditions, and I will make sure your photographs are just as magical, whatever the day brings.

Photography is my passion

“Do it with passion or not at all”

Karolina & Patrick

We received a photoshoot with Marko as a wedding gift from our friend because she knew it's our dream to have wedding pictures from an olive field in Croatia. And it's the best gift ever! We are so happy with the photos Marko did for us, they are simply BEAUTIFUL!!! We keep looking at them over and over. Marko has a great eye! He's a real professional and will tell you exactly what poses look good, how to stand, hold your partner, etc. He's a great guy too! It was a pleasure to work with him. He speaks great English, so it was easy to communicate with him, since we're from Slovakia. Also we love how he edited the photos, they look so magical!!! Exactly what we hoped for! We highly recommend Marko as a wedding photographer to all the couples who want to have the most beautiful pictures! 💎 THE BEST!!

Lukrecija & Elio

We are absolutely satisfied with Marko! We knew we wanted something non-traditional, and Marko accepted our idea of a non-classical wedding without typical posing and the results were GREAT!

Marko has an incredible talent for capturing spontaneous moments, every photo tells a story and they are the best memories from that day. All of our guests now have at least one “best picture ever” from our wedding!

Also Marko is friendly and adaptable and communicating our wishes with him was the easiest part of planning the wedding.

One more important thing, we got our complete photo package only few weeks after the wedding and our friends have had bad experiences of waiting several months with other photographers.

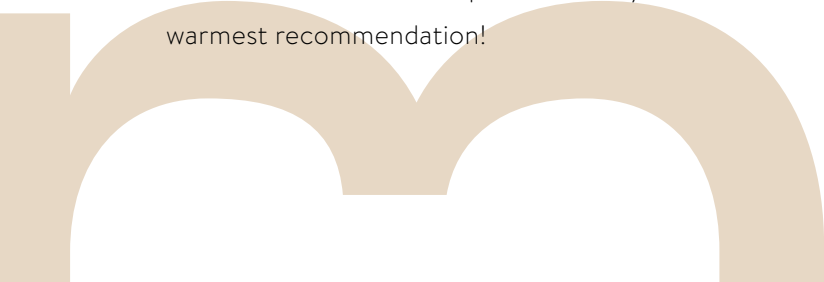

Nikolina

& Anđelko

From the very first moment we met Marko, we knew our wedding was in the hands of a true professional. He listened to every wish we had, offered thoughtful advice, and instantly made us feel relaxed in front of the camera – something that means a lot, especially on such an important day.

What makes Marko truly special is his ability to recognise and capture the beauty of life's most meaningful moments. He preserved our emotions, smiles, and happiness so naturally and beautifully, creating memories we will cherish for a lifetime.

Marko, thank you. We wish you many more beautiful moments to capture – and you have our warmest recommendation!

MaryKate & Kyle

Marko helped my fiancé plan a surprise proposal and engagement photo shoot in Hvar. Marko braved wind and rain and still managed to capture so many amazing photos that really capture our love and excitement. He is so kind and professional and the whole experience was exceptional. Marko posed us really well and also gave us the opportunity to suggest our own poses and photo ideas. He even got our all pictures to us in less than a week! My fiancé could not have chosen a better photographer and we can't recommend Marko highly enough!

Thank you for trusting me

to immortalise your day.
